Nations

Every year, GeoTHERM brings together **international experts, companies and decision-makers** from the geothermal industry in one place – in Offenburg, the centre for future energy in Europe.

On **25 and 26 February 2027**, visitors and exhibitors can look forward to two intensive days full of **innovation, exchange and expertise** on near-surface and deep geothermal energy. Whether presenting the latest technologies or best practice projects, this dynamic environment offers the opportunity to exchange ideas with experts from **industry, science and politics**.
