Sofie de Volder

20 YEARS GeoTHERM expo & congress

Ausbildung und Studium / *Education and studies*

Master of Science in Biology, Master of Science in Business Administration, Co-founder of TRAQUA, 6 years of experience as business development manager at TRAQUA.

Aktuelle Projekte und Tätigkeitsschwerpunkte / Current projects and key areas of activity

TRAQUA is a company specialised in field hydrogeology and fluorescent dye tracing. We apply this methodology to obtain key hydrogeological parameters for a wide range of domains such as drinking water protection, tunneling and other geotechnical projects, geothermal (both shallow/ATES and deep), soil remediation projects, karst risk assessment, environmental protection, mining and quarrying, urban water management, etc.
